

SECURITIES ADVANCED BUOYANTLY.

A Distinct Revival of Public Interest Evincing in Stocks.

SALES IN HUGE BLOCKS.

U. S. Steel and Pacific Were Well Liked by the Talent.

The local Stock Market emerged entirely from the state of professionalism, which has been so marked a characteristic recently, and the initial figures and heavy trading denoted a decided revival of interest in the market by the outside public.

Several reasons were assigned for the distinct improvement and liberal support. It was reported that the already depleted ranks of the Amalgamated workers were bettering owing to the protracted struggle, and were manifesting a disposition to come to terms. This prompted buying in the U. S. Steel corporation securities, resulting in an advance of 1 1/2 per cent. in the common stock and 5 1/2 per cent. in the preferred, which sold up to 41 3/8 and 94 1/8 respectively.

Prospects of an easy money market, together with excellent railway traffic returns, were additional potent influences in the advance, particularly in the railway group. Southern Pacific was the van in point of sales, over 10,000 shares exchanging hands at the very outset.

In the industrial quarter, however, Copper was even more favored on sales of 15,000 at the opening. The advance in price was not as much as expected, being only 1 1/2 per cent. to 12 1/2.

Of the local Traffic, Manhattan and Metropolitan Street Railway were distinctly bullish, at gains of 1 per cent. each. Brooklyn Rapid Transit sold up to 17, but Third Avenue was inactive. Other strong features in the railroad group were, Missouri, Illinois Central, and Northern Pacific.

The market continued to rise during the second hour of trading on a favorable bank statement. The closing was strong, with prices ruling slightly higher than the highest.

The total sales of stocks today were 456,200 shares.
